MRCC PAID SUMMER UNDERGRAD INTERNSHIP

Details below. **Submit by Feb 6, 2023.** Send questions & applications to mrcc@purdue.edu

MRCC 2023 Summer Intern – Climatologist

Position: Student hourly
Salary: \$15/hour; 40 hours/week
Location: West Lafayette, Indiana (must be in-person); Purdue University

Availability: Must commit to a minimum of 8 weeks. Up to 13 paid weeks are available. Internship period run from May 15, 2023 – August 11, 2023.

Primary Function of Position: To serve in a support role within the service and research-based environment at the Midwestern Regional Climate Center (MRCC).

Duties & Responsibilities: This position is designed to expose the intern to the range of activities performed by the MRCC. The intern will assist MRCC climatologists with outreach and education activities (e.g., social media, marketing of products and tools), in responding to data and information requests in the MRCC service office, and with applied research projects.

Education Requirement: This position is open to anyone currently enrolled as a sophomore or above in an atmospheric sciences or related field program. Graduating seniors are eligible only if they have been accepted to a graduate degree program and they will begin that program no later than Fall 2023.

Experience Requirement: A strong interest in climatology is preferred, as well as an interest in climate outreach and education. Strong communication skills are required for this climate services and outreach environment.

Knowledge Required: Experience with word processing and spreadsheet software
Encouraged: Experience in computer programming, scripting, and statistical packages.

Decision Timeline: Top candidates will be invited for a virtual interview in mid-February. Internship offer letters will be sent no later than February 28, 2023, and candidates will be given 10 days from when they receive their letter to accept or decline the offer. The MRCC expects to hire up to 2 student interns for Summer 2023.

Logistics: Interns will be responsible for their own travel to/from West Lafayette and responsible for their own housing. Interns are eligible to apply for student housing through Purdue University.

Contact Information: A cover letter, resume, and the names of up to three professional references should be submitted electronically via email no later than 12 PM Eastern on February 6, 2023. The applicant's last name must be included within each file name.

Applications should send all materials to:
 Midwestern Regional Climate Center
mrcc@purdue.edu

MS AND PHD EAPS STUDENTS BROADEN YOUR GRAD EXPERIENCE

For those MS and PhD students in EAPS that would like to broaden their graduate experiences while at Purdue, EAPS is affiliated with the Computational Interdisciplinary Graduate Programs (CIGP) at Purdue. While working toward a graduate degree in EAPS, graduate students can also have a concentration (specialization) in the area of Computational Science and Engineering (CSE). For more information, [click here](#). A short video about the CIGP/CSE program can be found [here](#).

Spring Application Deadline: March 1

Fall Application Deadline: October 1

STEM TEACHER RESIDENCY PROGRAM BECOME A STEM TEACHER IN 18-MONTHS

Purdue's Indianapolis STEM Teacher Residency program, in partnership with Indianapolis Public Schools, aims to strengthen the educational

outcomes of students in one of the largest urban school districts in Indiana. We will prepare you to become a culturally competent, highly qualified teacher who will elevate student achievement in middle and high school science, technology, engineering, and mathematics (STEM). After successfully completing the program, graduates must commit to a three-year STEM-related teaching position with Indianapolis Public Schools.

GET PAID TO CONTINUE YOUR EDUCATION

- Stipend: \$46,500
- Program Cost: (\$16,875)
- Remaining Stipend for Living Expenses: \$29,625

100% ONLINE COURSEWORK AND IN-PERSON STUDENT TEACHING

- Master of Science in Secondary STEM Education
- Graduate Certificate in K-12 Integrated STEM Education
- Education
- Initial Teaching Licensure

- [Tim Samaras Scholarship](#)

APPLICATIONS OPEN: EARLY CAREER LEADERSHIP ACADEMY FROM THE AMS

The AMS Early Career Leadership Academy (ECLA) aims to build and sustain a diverse network of early career leaders in weather, water, and climate science. ECLA will bring together a select group of early career individuals—in particular, women and underrepresented minorities—for an immersion

experience in leadership, such as creative problem-solving, conflict resolution, building trust, and enhancing communication skills. We seek early career individuals from a wide range of professions, interests, perspectives, cultures, and experiences.

(Early career is nominally taken to include scientists who are within 10 years of having earned their highest graduate degree or within 15 years of having earned their baccalaureate, whichever is greater. Consideration will also be given, however, to those who are still in the early stage of their careers but have seen these interrupted for up to 5–10 years by family leaves, military service, and the like.) Anyone interested can learn more and [apply here](#). **Applications will be accepted until Monday February 6, 2023.**

COMING SOON! SPRING 2023 YOUNG VOICES OF SCIENCE PROGRAM

The Hubbard Brook Research Foundation will soon be accepting applications for the Young Voices of Science program during the Spring 2023 semester! **The application process will open on February 6th and close on February 27th.**

- What: FREE science communication training and real-world practice for science scholars!
- Who: Graduate and undergraduate students in environmental (or similar) fields are eligible to apply
- When: Series of seven Zoom workshops held on Thursdays, March 9th through April 20th, 6:00 - 7:30 pm ET
- Where: Wherever you are, via Zoom!

Young Voices of Science Program Spring 2023 Class size is limited – Apply by February 27th!

The Young Voices of Science program consists of a series of expert-led workshops, each designed to prepare and empower science scholars to share their knowledge, concerns, and hopes for the future with the wider world, and provide a launch pad for public engagement, early in their scientific careers.

Workshop leaders are experts in public engagement with science, creative writing, storytelling, and science-to-policy outreach. Class size is limited to 20 participants; we ask that participants commit to all seven workshops and design and carry out at least one outreach project, with support from a staff mentor.

To learn more about our program, see YVoS Alumni and explore past outreach projects, [visit](#).

NAGT – 9TH ANNUAL EARTH EDUCATORS' RENDEZVOUS

The National Association of Geoscience Teachers (NAGT) is excited to announce that registration and abstract submissions are now open for the [ninth annual Earth Educators' Rendezvous, taking place in Pasadena, California, from July 10-14, 2023!](#) [registration](#), [programming](#), and [contributed program abstract submissions](#).

Register

Make sure you save your spot by [registering!](#) Register by the early registration deadline-- Wednesday, May 3--for the best rates. NAGT members receive \$100 off registration.

Learn more

Check out the [Rendezvous website](#) and [participant information](#) for more details.

18TH ANNUAL GEOLOGY INTERNSHIP & CAREER FAIR

- **When: Saturday, February 11th** (Begins at 10:30am)
- Where: Cooper Science Southeast Lobby and Fine Arts Building
- When: Saturday, February 11th (Begins at 10:30am)
- Where: Cooper Science Southeast Lobby and Fine Arts Building (CP 188) 2000 W. Riverside Ave, Muncie, INCP 188) 2000 W. Riverside Ave, Muncie, IN

Events:

- 9:00am-10:15am Company check-in (Cooper Science)
- 10:30am-11:00am Guest speaker Richard Mourdock (Cooper Science)
- 11:00am-11:30am Student Awards Ceremony (Cooper Science)
- 11:45am-12:45pm Lunch Break
- 1:00pm-3:00pm Job Fair (Cooper Science)
- 2:30pm-3:30pm Silent Rock Auction [Cash Only] (Fine Arts)

STUDENT OPPORTUNITY – MIDWEST DATATHON STUDENT COMPETITIONS

[Correlation One](#) is a New York based startup that hosts data science and engineering competitions for the world's best STEM students.

We are excited to announce that this upcoming Spring, we are partnering with Citadel and Citadel Securities to host the [Midwest Datathon](#), a data science competition that challenges students from the region's best universities to tackle real-world social challenges in topics such as urban traffic, renewable energy, and education, as well as the

[Midwest Terminal](#), a games-based AI challenge, where players code strategies to automate gameplay.

Top performing students have the opportunity to win \$15,000 in cash prizes along with exclusive recruiting opportunities with Citadel (both internships and full-time roles). The events are completely free and invite only.

URISE SUMMER 2023 INTERNSHIP APPLICATIONS BEING ACCEPTED

URISE is pleased to announce that we are now accepting applications for the summer of 2023! If you are an undergraduate math, physics, geoscience or computer science student interested in exploring Earth and developing new skills, please consider applying! The deadline for applications is February 1st with letters of reference due by February 15th. Our program has proven to be a successful stepping stone for careers in oil & gas industry, academia, federal and state governments, and in a variety other geo-technical fields.

URISE Interns...

- Build lasting connections with like-minded students interested in using their quantitative skills to better understand Earth
- Are funded to travel to their mentor's institution and conduct independent research
- Receive a stipend of \$600/week + \$200/week for subsistence for 8 to 11 weeks
- Have fun while learning critical skills that have led over 78% of alumni to pursue geoscience careers in federal and state governments, academia, industry, and as independent consultants
- Receive full funding to present their independent research at the Fall American Geophysical Union conference
- Are diverse in gender, race and ethnicity, age, disability status, and academic standing... YOU could be next!

To learn more about the program, the types of research interns conduct through the program, and to apply, please visit:

<https://www.iris.edu/hq/internship/interns>

NESSI STUDENT INTERNSHIP OPPORTUNITY
NCAR Earth System Science Internship (NESSI) is now accepting applications from undergraduate and graduate students. The NESSI program is hosted by NCAR Education, Engagement & Early-Career Development and offers students interested in the Earth system sciences an opportunity to conduct

research with NCAR scientists from across all labs on a wide range of topics including but not limited to atmospheric science, computational science, engineering, and solar & space physics. Our program is designed to support and promote Earth system science through research, mentoring, and community building. **The application deadline is February 12, 2023.** Please see our [NESSI webpage](#) for more details. And visit UCAR/NCAR's website for all of our [programs for students and postdocs](#). If you have any questions about the NESSI or any of our student programs please don't hesitate to reach out.

STUDENT SCHOLARSHIP OPPORTUNITY

[Student Pathways Scholarship](#), which has a deadline of **March 1st, 2023!** This scholarship is a one-time award of \$500-\$1000, depending upon the number of applicants, for students with disabilities pursuing fields of study within the geosciences. This scholarship is open to both full-time and part-time students and can be used to cover the cost of tuition, rent, bills, or other financial obligations they may be dealing with. The direct link to the [form is here](#), in case there are issues accessing the website.

INFINITE COOLING CLOUD PHYSICS

internship opportunity that requires grad-level experience/interest in experimental/numerical modeling. Infinite Cooling is an award-winning startup company, and our mission is simple: to mitigate the water scarcity around the world. We help power plants and other industrial processes reduce their water consumption and water treatment costs by recovering water from their cooling tower exhausts. We are a small team based in Malden, Massachusetts, and we are on a mission to be a global leader in the water services industry for power generation. Infinite Cooling has raised over \$16M in funding and has won the MIT \$100K, MassChallenge, the DOE national Cleantech competition and numerous other awards. We are looking for a sharp, tenacious, and creative R&D engineer intern to join our team and work on developing the next generation of our product. Strong communication, flexibility, and the desire to "wear many hats" will all be essential skills for a successful applicant. [Career and contact info here](#). To gain more info about this internship, [contact via email](#).

2023 COMMUNITY SOURCED DIRECTORY

We have launched the 2023 COMMUNITY SOURCED DIRECTORY of Research Experiences for Undergraduate - REU! This is to support students in finding powerful and well-supported Research Experiences. Furthermore - the directory includes many aspects of accessibility and identity that can help all our students. **A new column this year is if a program has opportunities for non-US Citizens.** [You can access v04 for Summer 2023 posted here.](#) Subsequent versions will be posted ~weekly into March. While a majority of these are NSF funded, a growing number are funded by a wide range of organizations/institutions, and have a growing range of formats.

We recommend that users review the column headers (listed below), in order to help them find programs that fit their identities and needs, and that they can reach based on their exams / university calendars. A student in a quarter program should avoid programs that start in early May, and vice versa for students in semester programs who need to be in class in late August/September.

PROGRAM CHARACTERISTICS

- ACCOMMODATION provided
- TRAVEL costs provided/reimbursed
- FOOD provided
- Overnight OFF-SITE travel required
- INTERNATIONAL - requires passport
- OUTDOOR field work
- Working on/in WATER - know how to swim
- DRIVING - license required
- COVID VACCINATION required
- OTHER

STUDENT CHARACTERISTICS

- Rising SOPHOMORES
- Rising JUNIORS
- Rising SENIORS
- 2-YEAR Coll. Students
- 4-YEAR Coll. Students WITHOUT grad program
- 4-YEAR coll. students WITH grad program
- Post Baccalaureate (with degree / already graduated)
- PRIOR Research Experience
- NO prior research experience
- TEACHERS or other professionals
- VETERANS
- MINORS (<18)
- NON US CITIZENS (opportunities available)
- OTHER

ACCESSIBILITY

- Encouraged Applicant Identities
- Have not made accessibility plan

- YES, accessible to DEAF / ASL
- MOBILITY-AID/ WHEELCHAIR
- Yes - GUIDE DOGS SERVICE ANIMALS
- Accommodate FOOD RESTRICTIONS

OTHER SUPPORT

- Stipend
- Describe additional supports provided by the program, which may include support for conferences attendance, early admission pathway to graduate program, support with research transition to senior thesis work, support for publication fees, etc.
- Describe the plan for the REU should COVID restrictions limit in-person/on-site activities.

SUMMER 2023 UNDERGRADUATE REU

Are you looking for a summer research internship studying ocean, coastal or environmental science? I invite you to check out the Maryland Sea Grant Summer REU program. We bring upper-level undergraduate students to the Chesapeake Bay to conduct individual research projects with a scientist-mentor at the University of Maryland Center for Environmental Science. We select undergrads in many disciplines, including engineering, biology, chemistry, physics, mathematics, ecology and marine and environmental science.

Our program runs for 12-weeks from May 22 to August 13, 2023.

Each REU fellow will receive:

- \$7,200 stipend
- Free housing at your research lab
- Round-trip travel expenses

In particular, **we encourage students from colleges and universities where access to marine science and to research opportunities is limited and who are from groups traditionally underrepresented in science, technology, engineering and math.** We believe bringing together students from many disciplines, backgrounds and parts of the country makes for a more interesting and educational summer experience.

We are accepting applications for the 2023 class now through February 15. We held our first in-person REU this past summer and expect to hold summer 2023 in-person as well. We recognize that the state of the pandemic may impact how the program operates. Please visit our website to find out more (www.mdsg.umd.edu/reu) or drop me a note at reu@mdsg.umd.edu.

**SCHOLARSHIPS AVAILABLE -
AWG BRUNTON AWARD AND
BRUNTON FIELD PROJECT AWARD**

The AWG Brunton Award and Brunton Field Project Award promote the future of field mapping and data acquisition for the upcoming generation of people whose gender identity has been historically underrepresented in the geosciences. Applicants should have a passion for and exceptional experience with field work, including internships, field camp, coursework with a field-based research component, or research. The AWG Brunton Award has been active for >20 years and provides Brunton compasses to 1–2 awardees each year. The AWG Brunton Field Project Award started in 2022 and awards a Brunton compass and up to \$1000 to support field activities to each of 1–2 awardees each year. [Learn more here.](#)

**NWS FORECAST OFFICE IN PADUCAH, KY
SEEKING TO RECRUIT UP TO FOUR STUDENT
VOLUNTEERS FOR THIS SUMMER**

Student Volunteers Needed!
Volunteer at NWS Paducah During Summer 2023!

The National Weather Service in Paducah, KY, is seeking up to four student volunteers to help us with important projects and to experience working at an NWS office! The volunteer experience can be either virtual or in-person.

Qualifications:

- ✓ Be enrolled at least half-time in an atmospheric science or meteorology program at a college or university.
- ✓ Have completed your sophomore year.
- ✓ Be available to volunteer around 8 hours per week between June 5 and August 4, 2023.

How to Apply:
Visit our website or scan the QR code:
www.weather.gov/pah/studentvolunteers
Application deadline is March 10, 2023.

**MASTER OF ARTS IN TEACHING EARTH SCIENCE
RESIDENCY PROGRAM ACCEPTING APPLICATIONS**

[The Master of Arts in Teaching Earth Science Residency Program](#) in the Richard Gilder Graduate School at the American Museum of Natural History in New York City is looking for graduates with Earth and space science backgrounds (geology, mineralogy, paleontology, oceanography, astronomy, environmental geology, and more) who want to make a difference in the world of STEM education. This teaching fellowship combines coursework, mentoring, and real-world experience to prepare Earth and space science graduates for

rewarding careers as culturally responsive middle and high school teachers. **All degree candidates will receive free tuition, books, and a \$30,000 living stipend.** In return, candidates commit to teaching in a high-needs school for three years. With a sole focus on preparing new Earth science teachers, the program is a full-time, 15-month Master's degree program that takes place at the Museum and in urban partner schools. We seek a student body with a passion for social justice and diverse life and career experiences. We are currently accepting applicants for the class that will begin in June 2023. Prospective students are encouraged to attend an Information Session or to contact us for more information. You can also visit the program website to learn more and/or join our mailing list (make sure to click MAT for Earth Science Grads). For questions, you can contact the program office directly <mailto:atmat@amnh.org> or (212) 313-7464.

UIUC'S SUMMER RADAR CAMP

Attention upper division undergrads and grad students: **Application deadline is February 15, 2023.**

The 1st Annual UIUC Dept. of Atmos. Sci. FARM Facility Radar Institute!
Held in-person at the University of Illinois Urbana-Champaign campus
From June 18 – July 1, 2023

Using the Department of Atmospheric Sciences FARM Radars and other FARM instrumentation, you will have the opportunity to:

- 🚗 Learn about radar operations and theory
- 🚗 Learn about planning field campaigns
- 🚗 Learn about observation strategies and radar scan modes
- 🚗 Plan and execute a small field campaign
- 🚗 Learn about analysis techniques
- 🚗 Analyze DOW and COW radar data

Applications are open to undergraduate students. Students who have completed two years of college course work and are majoring in a science, technology, engineering or math field are encouraged to apply. No prior research experience is required.

Application Deadline:
15 Feb 2023; 23:59 CT

- To Apply:**
- 🚗 1-page Statement of Interest
 - 🚗 CV
 - 🚗 1 Recommendation Letter
 - 🚗 Academic Transcript

Email Application to:
kakosiba@illinois.edu

If you are selected to participate, you will receive travel support, on-campus lodging, and per diem.

**POSITIONS AVAILABLE-
CAREER OPPORTUNITIES**
**FULL TIME RESEARCH OPERATIONS MANAGER –
UNC CHARLOTTE**

The Department of Geography & Earth Sciences at UNC Charlotte is searching for a full-time Research Operations Manager (lab manager). Instrument capabilities in the department include ICP-MS, ion chromatography, laser particle size analysis, laser water and carbon isotope analysis, flow injection analysis, organic carbon analysis, total C/total N analysis, thermal conductivity analysis, AA, and XRD. [To apply.](#)

Application closing date February 10, 2023

AUGUST MACK

ENTRY LEVEL FIELD SCIENTIST

Responsible for learning and performing a wide and diverse range of field work related to the various August Mack and Environmental Field Services service areas. We offer on-the-job training and a career path to help our employees develop skills, gain experience, and advance their careers. Work is performed with direction from experienced technical personnel, under the general supervision of the Field Operations Manager. [Learn More and apply.](#)

**WEATHER, OCEANOGRAPHY, AND CLIMATE CHANGE
INSTRUCTOR AT PORTLAND COMMUNITY COLLEGE**

Portland Community College is seeking a full-time general science faculty member to provide culturally responsive instruction in support of PCC's Mission and Values. The successful candidate will be a dynamic instructor who can build an environment that inspires and communicates a love of physical science to a diverse group of students. There will be opportunities to provide input and collaborative leadership in the areas of curriculum and program development, mentoring, virtual learning, college-wide initiatives, community outreach and educational research. The ideal candidate will have a background in meteorology, oceanography, and climate studies, as well as experience with aviation weather forecasting. The new instructor in this position will teach classes at the Rock Creek campus, and fully-online, to support general education as well as PCC's Aviation Science program. The earth sciences departments are currently in a state of renewal, and this is a rare opportunity to help shape the future growth of the program for the 21st century. [More info.](#)

MULTIPLE POSITIONS OPEN WITH ENVIROFORENSICS

EnviroForensics is hiring! We're looking for motivated and collaborative individuals to join us as a Project Manager (Indianapolis or Louisville), Staff

Professional (Indianapolis), Field Professional (Indianapolis), and Field Technician (Indianapolis). If you're interested in joining our team, visit our Careers and apply today! [Click here to apply](#)

ASSISTANT PROFESSOR OF ENVIRONMENTAL & GEOSPATIAL SCIENCES - WESTERN KENTUCKY UNIVERSITY

The Department of Earth, Environmental, & Atmospheric Sciences (EEAS) at Western Kentucky University is seeking highly qualified applicants for a 9-month tenure-track Assistant Professor of Environmental & Geospatial Sciences position beginning August 2023. [Learn more here.](#)

INDIANA EHS ADVISOR JOB POSTING

U.S. Compliance: Searching for high performing EHS professionals who want to make a difference. Join our fast-growing EHS compliance firm to help us **CARE** for people, **PROTECT** the environment and **GROW** our clients' business. [Link to posting.](#)

POSTDOCTORAL APPOINTEE AT ARGONNE - WIND ENERGY AND CLIMATE SCIENCES

We have an exciting opportunity for a Postdoctoral Researcher position focusing on Wind Energy and Climate Science at the Argonne National Laboratory. This appointment will be at the Environmental Science Division embedded within our Computer, Environment, and Life Sciences Directorate. The project aims to improve our understanding of factors modulating winds in an offshore wind farm environment, with an ultimate goal of improving their representation in models used for forecasting wind energy. The three-year multi-institutional project titled Observationally driven Resource Assessment with CoupLEd models (ORACLE) is funded by Department of Energy Wind Energy Technology Office. [Learn more here.](#)

METEOROLOGIST POSITIONS AVAILABLE TEGNA

Multiple [meteorology positions](#) are open with TEGNA.

BRYAN ENVIRONMENTAL CONSULTANTS

Homewood, IL

SEEKING PART-TIME TO FULL-TIME POSITIONS

- Bachelor's or Master's degree in environmental engineering, civil engineering, geotechnical engineering, geology

- Knowledge of State and Federal environmental regulations a plus
- Experience with Phase I and II Environmental Site assessments a plus
- Strong writing skills
- Proficient in all Microsoft Office applications
- Must have cell phone and computer (laptop)
- Valid Driver's License

POST-DOC OPPORTUNITY - AIR FORCE SCIENCE & TECHNOLOGY FELLOWSHIPS

The National Academies of Sciences, Engineering, and Medicine administers postdoctoral and senior research awards at the U.S. Air Force Research Laboratory (AFRL), the U.S. Air Force Institute of Technology (AFIT), and the U.S. Air Force Academy (USAFA) under the [Air Force Science & Technology Fellowship Program \(AF STFP\)](#).

Seeking highly qualified candidates who are U.S. citizens and hold, or anticipate earning, a doctorate in a variety of fields of science or engineering.

Application deadline dates (four annual review cycles): February 1, May 1, August 1, November 1

Awardees have the opportunity to:

- Conduct independent research in an area compatible with the interests of the Air Force laboratories
- Devote full-time effort to research and publication
- Access the excellent and often unique Air Force research facilities
- Collaborate with leading scientists and engineers
- Awardee benefits:
- Base stipend starting at \$76,542; may be higher based on experience
- Health insurance (including dental/vision), relocation benefits, and a professional travel allowance

Applicants should contact prospective AFRL, AFIT and USAFA Research Adviser(s) at the lab(s) prior to the application deadline to discuss their research interests and funding opportunities.

For detailed program information, to search for AFRL, AFIT, and USAFA Research Opportunities, and to contact prospective Research Adviser(s), visit www.nas.edu/afstfp.
