## NEWS/OPPORTUNITIES AT PURDUE

DR. DONALD W. LEVANDOWSKI

ENDOWMENT LECTURE: SPEAKER JAMES FARQUHAR

Thursday, October 19, 3:30 – 4:30pm  
HAMP 1252

James Farquhar is a Professor at the University of Maryland. Host: Greg Michalski, Professor. **The Dr. Donald W. Levandowski Endowment Lecture Series was set up in memory of Dr. Levandowski.** He served Purdue University for more than 20 years, including 10 years as EAPS Department Head. During this time the Geosciences Department was renamed the Department of Earth and Atmospheric Sciences. He served on numerous departmental, school and university committees, including the University Senate and the Committee for Development of Facilities for Physically Handicapped Students, and was Director of the Indiana Mining and Mineral Resources Research Institute from 1980 until 1993. Dr. Levandowski's work in remote sensing was widely recognized, and he was invited by a number of countries to work in association with government and research agencies, including the International Atomic Energy Agency. Among his extensive list of

publications were works that received the ERDAS Best Science Award and the Autometric Award for Superior Publication on Imagery Interpretation. He served as an advisor to NASA on observation satellites and was a member of the Indiana Lieutenant Governor's Science Advisory Task Force.

### Webinar on Global Citizenship in Carbon Capture, Use, and Storage (CCUS) and New Carbon Economy

**Doug Schmitt**  
Brand Professor of Unconventional Energy, Purdue University

**Greg Dipple**  
Professor of Geological Sciences, University of British Columbia

**Amanda Ellis**  
Executive Director for the Global Institute of Sustainability and Innovation, Arizona State University

**Elita Yunyue Li, Moderator**  
Mary J. Elmore New Frontiers Associate Professor in Data Science, Purdue University

Date: Tuesday, 17th Oct  
Time: 2:00-3:00PM EDT  
Venue: Online  
Registration:  
<https://tinyurl.com/2p9baxjr>

**Wen-wen Tung, Facilitator**  
Director of GeoData Science for Professionals, Purdue University

Center for Sustainable Development  
EARTH INSTITUTE | COLUMBIA UNIVERSITY

### GLOBAL CITIZENSHIP IN CARBON CAPTURE, USE, AND STORAGE (CCUS) AND NEW CARBON ECONOMY

**Tuesday, 17th October from 2:00-3:00PM EDT.**

In a world grappling with the challenges of climate change, our webinar seeks to shed light on innovative solutions driving the transition to a more sustainable future. Specifically, we will focus on the critical role of Carbon Capture, Use, and Storage (CCUS) in mitigating climate change impacts and shaping a new carbon economy.

This webinar is the fifth in a six-part series on fostering youth-led innovation for the United Nations Sustainable Development Goals (SDGs). It is co-developed by the Center for Sustainable Development at Columbia University and the Entrepreneurship at Environment team from the University of Waterloo, and will be led by [Wen-wen Tung](#) at Purdue University.

We have convened an expert panel consisting of [Douglas Schmitt](#), [Greg Dipple](#), [Matt Mettler](#), and [Amanda Ellis](#). Dr. [Yunyue Elita Li](#) will moderate a discussion that helps participants envision a future where technological innovation harmonizes with sustainability. The panel will touch on unique challenges and opportunities emerging as part of the new carbon economy, addressing key themes such as scientific analysis and open data on CCUS, transformative impacts of CCUS and CDR (Carbon Dioxide Removal), and envisioning a low-carbon future.

As a participant, you will deepen your understanding of the following:

- **Context:** Explore the deployment of CCUS technologies gaining traction in North America and Europe, catalyzed by favorable policies.
- **Insights:** Gain in-depth insights into CCUS and CDR technologies, with expert panelists unraveling the scientific intricacies and engineering designs underpinning these transformative projects.
- **Real-world Perspectives:** Industry forerunners will share challenges and successes in scaling up CCUS and CDR endeavors, offering a practical perspective on a low-carbon future.

This webinar is designed for an innovative and entrepreneurial audience passionate about creating a sustainable future. To join us for this enlightening session, please [register](#) in advance.

### GYPSUM VIRTUAL SEMINAR SERIES

the GeodesY and geoPhysics Seminar of the Upper Midwest (GYPSUM) virtual seminar series is happening, and Prof. Delph wanted to make sure to invite any departmental newcomers that may be interested and not already on the mailing list. GYPSUM is meant to connect researchers from midwestern institutions and allow them an opportunity showcase their research to other universities. Subject matter can include: seismology, geodesy, geodynamic/numerical modeling, electromagnetic/magnetotelluric methods, and tectonics (including petrology, geochemistry, and structural studies with implications for geophysical studies). Fall 2023 will consist of **~7 50 minute virtual blocks** that will take place **on Tuesdays from 2:00-3:00 ET** between October and November. You can find the full schedule at our [GYPSUM webpage](#). If you are interested in joining the listserv, contact [Jonathan Delph](#).

### MS AND PHD EAPS STUDENTS BROADEN YOUR GRAD EXPERIENCE

For those MS and PhD students in EAPS that would like to broaden their graduate experiences while at Purdue, EAPS is affiliated with the Computational Interdisciplinary Graduate Programs (CIGP) at Purdue. While working toward a graduate degree in EAPS, graduate students can also have a concentration (specialization) in the area of Computational Science and Engineering (CSE). For more information, [click here](#). A short video about the CIGP/CSE program can be found [here](#).

**Spring Application Deadline:** March 1  
**Fall Application Deadline:** October 1

### EAPS GRAD STUDENT RESEARCH OPPORTUNITIES

If you are interested in an EAPS grad research opportunity, [click here](#) for more information.

## OUTREACH NEWS

### **SUPERHEROES OF SCIENCE PODCAST ALERT!** **FEATURING DISHA OKHAI**

Disha Okhai researches ancient volcanoes to learn about the patterns and processes that provide valuable information about how magma accumulates, moves, and triggers volcanic eruptions. This historical perspective allows for the identification of key indicators and precursors that signify an impending volcanic eruption. Armed with this knowledge, modern monitoring techniques can be fine-tuned to detect early warning signs of impending eruptions more effectively, leading to more accurate forecasts and enabling communities living in volcanic-prone areas to be better prepared and respond swiftly to potential threats. [View on YouTube here](#) or listen on [Apple podcasts here](#).

### **K-12 Outreach would like to ask for your help in getting this request out to professional organizations.**

Teachers are desperately requesting resources related to STEM careers. Please consider sharing what you do with students and teachers by making a recording.

**Calling all STEM Professionals!** Join our mission to inspire students and support educators! Students lack awareness of the vast possibilities in STEM fields. Teachers are tasked with integrating college and career readiness into their curricula. To support both students and their teachers, Purdue University College of Science K-12 Outreach is creating an extensive STEM Career Repository. We need YOUR expertise to make a difference! Record a short video (2-3 minutes) introducing the captivating work you do as a STEM professional. Help us shed light on potential careers in STEM and ignite young minds with passion and curiosity! For the video, consider introducing yourself along with your job/career, then follow with important background information relevant to your job. Finish with something interesting that you do as part of your job. Video clips (2-3 minutes) should be filmed horizontally and submitted to [mrsmith@purdue.edu](mailto:mrsmith@purdue.edu). If you would prefer, we can

record you on Zoom. Many people are recording in both English and another language that they are fluent in speaking. If you do record in a second language, please let us know the language. Please share this request with your fellow professionals in the STEM fields to amplify our impact! Together, we can shape the future of STEM exploration and education. Let's inspire the next generation of scientists, engineers, and innovators! Connect with us and contribute to the STEM Career Repository: <https://www.purdue.edu/science/K12/LabPages/careers.php>

**If you or your group has worked with or helped with an activity for K-12 students or teachers, please fill out the departmental outreach activity form.** <https://bit.ly/EAPSOut>

#### **Social sites:**

## MEETINGS/EXPOS/ OPPORTUNITIES OUTSIDE OF PURDUE

### **CEG DIG INDY DEEP ROCK TUNNEL PRESENTATION**

**You are invited to attend a brief presentation and tour of Citizens Energy Group's deep rock tunnel.**

**October 27, 2023**

**10:00-12:00 EDT**

There is a virtual tour on [YouTube](#).  
[sign up at eventbrite](#).

Location: 3800 W. Southport Road, Indianapolis, Indiana, 46217

Program: There will be a brief presentation on the background of the DigIndy project, some of its challenging geology, and the current progress on construction. Some rock core samples will be available to review and discuss. Afterwards, we will

tour the Deep Rock Tunnel pumpstation. The presentation and tour will last 60-90 minutes.

**Logistics: Registration is required and seats are limited to 20.**

**This event is free and non-members of AIPG are welcome.**

- **When you approach the gate, there is a call box.** Press the button and let the attendant know you're there for a tour of the pump station. They will open the gate for you.
- **Someone will be inside the gate waiting for our group on the right hand side of the drive,** and will lead you back to the pump station site.
- **All guests will be required to sign a waiver** Anyone under 18 must have a legal guardian sign for them.
- **All guests must wear hard-soled, closed-toed shoes, long pants, and sleeved shirts** (short sleeves are acceptable). Dress for the weather. We'll spend some time outside.
- **Hi-vis vests, hardhats, and clear safety glasses** will be provided. **Bring your own if you have them.**
- **Parking is limited. Carpool if possible!**
- **Register at eventbrite:**

**NCAR ADVANCED STUDY PROGRAM ACCEPTING APPLICATIONS FROM STUDENTS AND NOMINATIONS FROM NCAR SCIENTIFIC STAFF FOR GRADUATE VISITOR PROGRAM AND STUDENT APPLICATIONS FOR THE BRIDGE TO GVP PROGRAMS**

The NCAR Advanced Study Program (ASP) is pleased to announce that we are now accepting applications from students and nominations from NCAR scientific staff for the Graduate Visitor Program (GVP) and student applications for the Bridge to GVP programs.

**\*Graduate Visitor Program\***

The ASP's Graduate Visitor Program (GVP) is an excellent way for graduate students to connect with NCAR to work on parts of their thesis or final project equivalent with guidance from NCAR scientists and engineers for visits ranging from two to six months. These visits have the goal of enhancing NCAR partnerships with other public and private institutions while enriching the research of the participating students.

**The application deadline for the GVP is October 31, 2023. The host nomination deadline for NCAR scientists and engineers is November 5, 2023.**

<https://edec.ucar.edu/advanced-study-program/graduate-visitor-program>

**\*Bridge to GVP\***

The ASP's Bridge to GVP is a hybrid one-month exploratory internship (3 weeks virtual and one week in person) at NCAR for graduate students who may be early in their career or who don't have a fully defined collaborative project for a regular GVP visit. The internship will give the student an opportunity to explore potential collaborations at NCAR with the goal of a longer visit in the future. Unlike the regular GVP process, this program does not require a nomination from an NCAR sponsor.

**The application deadline for the Bridge to GVP is October 31, 2023.**

<https://edec.ucar.edu/advanced-study-program/gvp-bridge-program>

Questions? Contact [asp-gvp-program@ucar.edu](mailto:asp-gvp-program@ucar.edu) or [cyccone@ucar.edu](mailto:cyccone@ucar.edu).

**AWG BRUNTON AWARD AND BRUNTON FIELD PROJECT AWARD**

The AWG Brunton Award and Brunton Field Project Award promote the future of field mapping and data acquisition for the upcoming generation of people whose gender identity has been historically underrepresented in the geosciences. Applicants should have a passion for and exceptional experience with field work, including internships, field camp, coursework with a field-based research component, or research. The AWG Brunton Award has been active for >20 years and provides Brunton compasses to 1–2 awardees each year. The AWG Brunton Field Project Award started in 2022 and awards a Brunton compass and up to \$1000 to support field activities to each of 1–2 awardees each year. [Learn more here](#). **Deadline for entry is Dec. 15<sup>th</sup> of each year.**

# POSITIONS AVAILABLE- CAREER OPPORTUNITIES

## **UNIV OF OKLAHOMA-CAPS SCIENTIST OPENING RESEARCH ASSOCIATE OR POST-DOC APPOINTMENT**

The Center for Analysis and Prediction of Storms (CAPS) at the University of Oklahoma is seeking a meteorologist or data scientist to participate in research of cutting-edge numerical weather prediction (NWP), ensemble weather prediction and associated calibration/post-processing to improve forecasts of high impact weather. The individual selected for this position will contribute to NOAA-funded projects relating to flash flood prediction, winter weather predictions, and development of the next-generation Rapid Refresh Forecast System (RRFS) ensemble. This research includes the use of machine learning algorithms to calibrate and post-process convection-allowing model output, so an interest in data science/AI will be helpful.

### **Job Responsibilities:**

- Implement new and updated model capabilities for research and real-time forecasting utilizing the convection allowing model ensembles.

- Run and monitor real-time ensemble NWP forecasts using NOAA's FV3-LAM (specifically, the UFS Short-Range Weather App) on high performance computing systems, to support CAPS research projects. Non-standard work hours may be required for 4-6 weeks in the summer and 2-3 weeks in the winter (can be done remotely).
- Contribute to verification of CAPS ensemble forecasts and forecast products.
- Publish findings in peer-reviewed academic journals and present research results at professional meetings and conferences.

### **Required Qualifications:**

- Master's degree (for a research associate appointment) or a recent Ph.D. (to be appointed as a post-doc) in meteorology, atmospheric science, computer science/data science or a closely-related field.
- At least one year of experience working with numerical weather prediction models (e.g., WRF, FV3, ARPS) in a high-performance Linux environment.
- Two years of experience in scientific programming and computing on Linux systems using high-level programming languages (such as Fortran, R and/or Python).
- Ability to work independently and troubleshoot issues in running community-developed software packages.
- Ability to communicate effectively in meetings, research presentations, software documentation, and formal publications.

### **Desired Skills:**

- Familiarity with workflow management on high-performance computing systems using schedulers such as SLURM.
- Experience with developing and/or modifying workflow automation using, e.g., Linux/Unix shell scripts, Python, and/or Rocoto.
- Familiarity with methods and software for NWP forecast visualization, evaluation, and verification, such as Python, Model Evaluation Tools (MET), etc.
- Familiarity with accessing datasets via tools such as AWS CLI and/or UNIDATA LDM.

### **How to Apply:**

Send a statement of interest highlighting how you meet the position qualifications, your resume/CV, and a list of three professional references to: Keith Brewster, [kbrewster@ou.edu](mailto:kbrewster@ou.edu). Questions about the position may also be directed via email to Dr. Brewster. This position will remain open until filled. **A formal review of applications will start on October**

**23rd, 2023 with anticipated start date in December, 2023. Fall 2023 graduates are welcome to apply.**

---

### **STAFF METEOROLOGIST**

The Department of Geography and Meteorology at Valparaiso University in northwest Indiana seeks applicants for the position of Staff Meteorologist. This is a full-time, staff scientist (non-faculty) position subject to annual professional reviews. We are looking for a dynamic, enthusiastic, instrumentation-oriented scientist with an M.S. or equivalent experience in meteorology/atmospheric science. Candidates should possess an outgoing personality with excellent interpersonal skills and a desire to work closely with undergraduate meteorology students. [Apply here.](#)

The department, located in Kallay-Christopher Hall, is home to ~70 undergraduate meteorology majors and maintains a Linux-based computer network, a dual-polarization Doppler radar, radiometer, multiple radiosonde systems, instrumented meteorological towers, and a suite of meteorological instrumentation. More information can be found at [www.valpo.edu/geography-meteorology](http://www.valpo.edu/geography-meteorology).

**Review of applications will begin October 2, 2023 until the position is filled.**

---

### **DePAUW SEEKING PART TIME INSTRUCTOR**

The department of Geology and Environmental Geoscience at DePauw University is looking for a part-time instructor to teach an undergraduate course in Hydrogeology in next spring semester. This is a great opportunity for a graduate student to get some teaching experience in a Liberal Arts setting (at least a Master's degree is required). Apply [here](#).

---

### **POSTDOCTORAL RESEARCH ASSOCIATE POSITION - PURDUE UNIVERSITY**

A postdoctoral position investigating cloud-aerosol interactions using stable water vapor isotopes and cloud microphysics observations is available in the [Department of Earth, Atmospheric, and Planetary Sciences at Purdue University](#). The postdoctoral researcher will join Professor [Lisa Welp](#) analyzing observations measured during the Southern California Interactions of Low cloud and Land Aerosol (SCILLA) airborne experiment, complementing the Eastern Pacific Cloud Aerosol Precipitation Experiment (ECAPE) DOE ARM mobile facility deployment in La Jolla, CA. The SCILLA research flights investigated the stratocumulus-topped boundary layer off-shore during the month

of June 2023. The postdoctoral researcher will be supported by [DOE ASR funding](#) to quantify dry air entrainment and cloud drizzle processes drying the cloud layer using water vapor stable isotopes. They will also work closely with the cloud microphysics data measured by collaborator Professor [Patrick Chuang](#)'s research group at the University of California Santa Cruz.

Candidates for this position should have recently completed their Ph.D. or should expect to complete their degree requirements by the start date, in atmospheric science or relevant Earth science program. Previous experience with the analysis of atmospheric gases or isotopes or a strong understanding of marine boundary layer processes is preferred. Candidates interested in this position should have a record of scientific achievement, and excellent verbal and written communication skills. Initial appointments are for 12-18 months with renewal for up to a total of 2.5 years upon review. The start date is flexible. A background check is required for employment in this position.

Applicants should supply (a) a curriculum vitae, including a list of publications, (b) a statement of research interests and goals including qualifications for the position (maximum 2 pages) and (c) e-mail address of three references to: Lisa Welp ([lwelp@purdue.edu](mailto:lwelp@purdue.edu)). Potential applicants are welcome to contact Professor Welp prior to applying to learn more about the project. Applications will be reviewed immediately, and the position will remain open until filled. [Applications can also be submitted here.](#)

---

### **WATER DATA INTEGRATOR**

The [New Mexico Water Data Initiative](#) is hiring a Water Data Integrator position. This position will use their hydrology, earth science, or data science background to review and compile water datasets. This position is a full-time, one-year, position with benefits. The positions may become long-term based on future grants and funding. A flyer with links to apply is attached to this email. Interested candidates may [email Rachel Hobbs](#) directly with questions. The New Mexico Water Data Initiative is a collaborative effort to make New Mexico's water data more accessible for management and planning. These positions will be part of a dynamic team working to make New Mexico more resilient to climate change.

---

### **NYS MESONET FIELD TECHNICIANS**

[NYS Mesonet](#) is hiring two field technician positions to maintain and repair 126-site standard network and 85 subnetwork sites. Competitive pay + benefits, learn more and [apply here](#).

**MONTANA MESONET FIELD MANAGER,  
MONTANA CLIMATE OFFICE**

The Montana Climate Office within the W.A. Franke College of Forestry and Conservation and at the University of Montana is seeking applications for an Applied Meteorologist/Mesonet Field Manager position. The Mesonet Field Manager (MFM) will oversee the installation and maintenance of climate monitoring stations (Montana Mesonet) across the state. The MFM will lead three Mesonet field crews: three full-time technicians and six seasonal employees in the construction and maintenance of the Montana Mesonet and ensure high-quality performance and operation of all stations. The Montana Mesonet is being developed through a US Army Corps of Engineers (USACE) award to the Montana Climate Office. [Link](#)

**TEACHER OF PLANETARY ATMOSPHERES –  
ISAE-SUPAERO IN TOULOUSE**

The teacher-researcher selected will be attached to the DEOS department of ISAE-SUPAERO. She or he will contribute to the development and animation of research around their own themes. She or he will ensure the fundamental missions of a teacher in his field of competence (face to face teaching, management of teaching programs). She or he will also be responsible for maintaining and developing relations and cooperation with regional, national and international academic and industrial partners. [Link](#)

**MULTIPLE POSITIONS OPEN WITH ENVIROFORENSICS**

EnviroForensics is hiring! We're looking for motivated and collaborative individuals to join us as a Project Manager (Indianapolis or Louisville), Staff Professional (Indianapolis), Field Professional (Indianapolis), and Field Technician (Indianapolis). If you're interested in joining our team, visit our Careers and apply today! [Click here to apply](#)

**ASSISTANT PROFESSOR OF  
ENVIRONMENTAL & GEOSPATIAL SCIENCES -  
WESTERN KENTUCKY UNIVERSITY**

The Department of Earth, Environmental, & Atmospheric Sciences (EEAS) at Western Kentucky University is seeking highly qualified applicants for a

9-month tenure-track Assistant Professor of Environmental & Geospatial Sciences position. [Learn more here](#).

**INDIANA EHS ADVISOR JOB POSTING**

U.S. Compliance: Searching for high performing EHS professionals who want to make a difference. Join our fast-growing EHS compliance firm to help us care for people, Protect the environment and grow our clients' business. [Link to posting](#).

**METEOROLOGIST POSITIONS AVAILABLE  
TEGNA**

Multiple [meteorology positions](#) are open with TEGNA.

**BRYAN ENVIRONMENTAL CONSULTANTS**

Homewood, IL

**SEEKING PART-TIME TO FULL-TIME POSITIONS**

- Bachelor's or Master's degree in environmental engineering, civil engineering, geotechnical engineering, geology
- Knowledge of State and Federal environmental regulations a plus
- Experience with Phase I and II Environmental Site assessments a plus
- Strong writing skills
- Proficient in all Microsoft Office applications
- Must have cell phone and computer (laptop)
- Valid Driver's License

**POST-DOC OPPORTUNITY - AIR FORCE SCIENCE  
& TECHNOLOGY FELLOWSHIPS**

The National Academies of Sciences, Engineering, and Medicine administers postdoctoral and senior research awards at the U.S. Air Force Research Laboratory (AFRL), the U.S. Air Force Institute of Technology (AFIT), and the U.S. Air Force Academy (USAFA) under the [Air Force Science & Technology Fellowship Program \(AF STFP\)](#).

Seeking highly qualified candidates who are U.S. citizens and hold, or anticipate earning, a doctorate in a variety of fields of science or engineering.

**Application deadline dates (four annual review cycles): February 1, May 1, August 1, November 1**

Awardees have the opportunity to:

- Conduct independent research in an area compatible with the interests of the Air Force laboratories
- Devote full-time effort to research and publication

- Access the excellent and often unique Air Force research facilities
- Collaborate with leading scientists and engineers
- Awardee benefits:
- Base stipend starting at \$76,542; may be higher based on experience
- Health insurance (including dental/vision), relocation benefits, and a professional travel allowance

Applicants should contact prospective AFRL, AFIT and USAFA Research Adviser(s) at the lab(s) prior to the application deadline to discuss their research interests and funding opportunities.

For detailed program information, to search for AFRL, AFIT, and USAFA Research Opportunities, and to contact prospective Research Adviser(s), visit [www.nas.edu/afstfp](http://www.nas.edu/afstfp).
