Geology Self-Guided Walking Tour

1. Lambert Fieldhouse - Fossiliferous Limestone

2. Granitic foliated gneiss with exposed joint plane

3. Amphibolite with granitic inclusions

4. Hovde Hall - Fossiliferous Limestone Pillars and Granite Steps

5. Granite Gneiss

6. Granite Gneiss/Schist

7. a.) Granite
   b.) Metaconglomerate

8. Granite Gneiss

9. Hornfels

10. Fountain - High grade gneiss amigmalite

11. Chert Breccia

12. Amphibolite with granite inclusions

13. Gneiss
1. Lambert Fieldhouse - Fossiliferous Limestone

2. Granitic Foliated Gneiss

3. Amphibolite with Granitic Inclusions

4. Hovde Hall - Limestone Pillars and Granite Steps

5. Granite

6. Granite Gneiss and Schist

7a. Granite

7b. Metaconglomerate

8. Granite Gneiss

9. Hornfels

10. Fountain - Gneiss

11. Chert Breccia

12. Amphibolite with Granite Inclusions

13. Gneiss
