MS AND PHD EAPS STUDENTS
BROADEN YOUR GRAD EXPERIENCE
For those MS and PhD students in EAPS that would like to broaden their graduate experiences while at Purdue, EAPS is affiliated with the Computational Interdisciplinary Graduate Programs (CIGP) at Purdue. While working toward a graduate degree in EAPS, graduate students can also have a concentration (specialization) in the area of Computational Science and Engineering (CSE). For more information, click here. A short video about the CIGP/CSE program can be found here.
Spring Application Deadline: March 1
Fall Application Deadline: October 1

STEM TEACHER RESIDENCY PROGRAM
BECOME A STEM TEACHER IN 18-MONTHS
Purdue’s Indianapolis STEM Teacher Residency program, in partnership with Indianapolis Public Schools, aims to strengthen the educational outcomes of students in one of the largest urban school districts in Indiana. We will prepare you to become a culturally competent, highly qualified teacher who will elevate student achievement in middle and high school science, technology, engineering, and mathematics (STEM). After successfully completing the program, graduates must commit to a three-year STEM-related teaching position with Indianapolis Public Schools.
GET PAID TO CONTINUE YOUR EDUCATION
• Stipend: $46,500
• Program Cost: ($16,875)
• Remaining Stipend for Living Expenses: $29,625
100% ONLINE COURSEWORK AND IN-PERSON STUDENT TEACHING
• Master of Science in Secondary STEM Education
• Graduate Certificate in K-12 Integrated STEM
• Education
• Initial Teaching Licensure

STUDENT SUMMER WORKSHOP IN EARTH AND ATMOSPHERIC SCIENCES
JULY 4-6, 2023
CHINESE UNIVERSITY OF HONG KONG
This workshop is open to all potential applicants to our PhD programme. We welcome undergraduate students in their 3rd / final year of study or master students to apply. Every participant will have the PhD admission interview opportunity. The first batch of PhD offers will be made shortly after the workshop.
Please visit workshop website more information. Application Process: submit application online
Application Deadline: 31 March 2023 (Friday)
Enquiry: eas@cuhk.edu.hk ; Tel: +852 3943 9323 / 3943 9624

Feedback from Past Participants
• “The arrangements for the workshop were fantastic. We were lucky to get an opportunity to attend the workshop and learned a lot about the EASC Ph.D. program. The communication way of professors was excellent.”
• “It was a great opportunity to learn about the application procedure and I was able to get adequate information. I also would like to thank the speakers for answering our queries about the application.”
• “The presentations are very interesting and the speakers are very passionate about their field. I aspire to be like them.”
• “This workshop provides a great opportunity to directly communicate with skilled professors.”

FREE COURSE PROVIDED BY THE ASSOCIATION FOR WOMEN GEOSCIENTISTS
Starting March 1, 2023 American Geosciences Institute, in partnership with the AAPG Foundation is offering AGI Member Societies FREE access to the Geologize online course, “Practical Geocommunication.” This course, valued at $400 per person, provides an excellent opportunity for geoscientists to become more effective and powerful public ambassadors for our field, something that is urgently needed. Given the challenges facing both our field and society more broadly, it has perhaps never been more vital to effectively communicate geoscience to the public and other stakeholders. The free offer is available for one year, so you are encouraged to take advantage soon!
How to get free access to the training:

http://www.eaps.purdue.edu/
- Go to the AGI society landing page here.
- Click on the ‘AGI Access’ button
- Register for the course (free)
- Click on the link ‘Have a Coupon?’
- Enter the code ‘awg-agi-ppgz-2324’ to remove the price.

NAGT – 9TH ANNUAL
EARTH EDUCATORS’ RENDEZVOUS
The National Association of Geoscience Teachers (NAGT) is excited to announce that registration and abstract submissions are now open for the ninth annual Earth Educators’ Rendezvous, taking place in Pasadena, California, from July 10-14, 2023! registration, programming, and contributed program abstract submissions.
Register
Make sure you save your spot by registering! Register by the early registration deadline--Wednesday, May 3—for the best rates. NAGT members receive $100 off registration.

INTERNSHIP OPPORTUNITY –
INFINITE COOLING CLOUD PHYSICS
Internship opportunity that requires grad-level experience/interest in experimental/numerical modeling. Infinite Cooling is an award-winning startup company, and our mission is simple: to mitigate the water scarcity around the world. We help power plants and other industrial processes reduce their water consumption and water treatment costs by recovering water from their cooling tower exhausts. We are a small team based in Malden, Massachusetts, and we are on a mission to be a global leader in the water services industry for power generation. Infinite Cooling has raised over $16M in funding and has won the MIT $100K, MassChallenge, the DOE national Cleantech competition and numerous other awards. We are looking for a sharp, tenacious, and creative R&D engineer intern to join our team and work on developing the next generation of our product. Strong communication, flexibility, and the desire to "wear many hats" will all be essential skills for a successful applicant. Career and contact info here. To gain more info about this internship, contact via email.

REU OPPORTUNITIES –
2023 COMMUNITY SOURCED DIRECTORY
We have launched the 2023 COMMUNITY SOURCED DIRECTORY of Research Experiences for Undergraduate - REU! This is to support students in finding powerful and well-supported Research Experiences. Furthermore - the directory includes many aspects of accessibility and identity that can help all our students. A new column this year is if a program has opportunities for non-US Citizens. You can access v04 for Summer 2023 posted here. Subsequent versions will be posted ~weekly into March. While a majority of these are NSF funded, a growing number are funded by a wide range of organizations/institutions, and have a growing range of formats.
We recommend that users review the column headers (listed below), in order to help them find programs that fit their identities and needs, and that they can reach based on their exams/ university calendars. A student in a quarter program should avoid programs that start in early May, and vice versa for students in semester programs who need to be in class in late August/September.

SCHOLARSHIPS AVAILABLE - AWG BRUNTON AWARD AND BRUNTON FIELD PROJECT AWARD
The AWG Brunton Award and Brunton Field Project Award promote the future of field mapping and data acquisition for the upcoming generation of people whose gender identity has been historically underrepresented in the geosciences. Applicants should have a passion for and exceptional experience with field work, including internships, field camp, coursework with a field-based research component, or research. The AWG Brunton Award has been active for >20 years and provides Brunton compasses to 1–2 awardees each year. The AWG Brunton Field Project Award started in 2022 and awards a Brunton compass and up to $1000 to support field activities to each of 1–2 awardees each year. Learn more here. Deadline for entry is Dec. 15th of each year.
