CONGRATS, KUDOS, COOL STUFF, AND THUMBS UP!

- Congratulations to Mia Smith, who won an Outstanding Student Poster Award at the recent AMS Student Conference!

- Thanks again for a great Advancing Space Exploration Symposium! To help us keep improving, we put together a quick feedback survey. We would love to hear your thoughts! [Survey link](#)

NEWS/OPPORTUNITIES AT PURDUE

EAPS SEMINAR

Thursday, February 19, 3:30 pm in PHYS 223. This week's departmental seminar will be presented by **Molly Zebker**, Postdoctoral Scholar at Scripps Institution of Oceanography at the University of California, San Diego. Zebker's talk is titled: "Accurate InSAR Surface Deformation Analysis: Characterizing Links Between Fluid Production, Seismicity, and Deformation in Texas."

EAPS UNDERGRAD STUDENT RESEARCH OPPORTUNITIES

If you are interested in an EAPS undergraduate research opportunity, [click here](#) for more information.

EAPS GRAD STUDENT RESEARCH OPPORTUNITIES

If you are interested in an EAPS grad research opportunity, [click here](#) for more information.

EAPS COMMUNITY SOCIAL HOURS

EAPS Community Social Hours will be held on **every Tuesday from 3 – 4 pm** in **HAMP 2201**.

This is a time for folks to come hang out, play Jenga, work in the corner, stare at the wall, make a new plot, don't make a new plot, talk about a new paper or current events, drink a coffee, brainstorm, and just be together.

Note: Occasionally, there might be another department event in the room, so if the 2201 door is shut or looks like something else is going on in there, check with folks in the room or look at the schedule that is posted on the door before barging in.

EAPS CONFERENCE ROOM UPGRADE

Our EAPS 2173 conference room in the main office is getting a much-needed upgrade this year! We will have three enlarged photos on the west wall in the conference room, and we would like to showcase our own EAPS photos that best represent your main areas. This will be an ongoing project, as we will replace the photos a few times throughout the year.

It can be EAPS field work, or a cool photo you took in your research area. JPG or PNG files would be

perfect. Anything high-resolution and crisp will work well, so it prints at the best quality.

Please go to the link below and upload your image(s).

FEDERAL FUNDING UPDATES

This site provides important information and updates from federal agencies that impact the Purdue University research enterprise.

<https://government-transition.research.purdue.edu/>

DEFENSE CIVILIAN TRAINING CORPS - PURDUE UNIVERSITY

Purdue's Defense Civilian Training Corps (DCTC) is a new program that will build civilian careers in the Department of Defense relating to acquisition, digital technologies, critical technologies, science, engineering, finance and more. The Defense Civilian Training Corps is a scholarship-for-civilian service award.

STREAMLINE CLIMATE & ATMOSPHERIC DATA ACCESS AT PURDUE

To better facilitate the atmospheric and climate science research within the Purdue community, RCAC is assessing the interest and current usage of key datasets and models. Our goal is to continue to grow centralized, ready-to-use data repository and pre-installed models in our cluster environment. This will reduce redundancy, streamline access, and optimize both time and resources across research groups. Please take the time to put your input in the survey link:

https://purdue.ca1.qualtrics.com/jfe/form/SV_3K91QLGCvyrCGwu

NASA HUBBLE FELLOWSHIP PROGRAM

Purdue University has been officially named a host site for the [NASA Hubble Fellowship Program \(NHFP\)](#), opening the door for top postdoctoral scientists to carry out independent astrophysics research on campus.

The competitive program is open to applicants who have completed their doctoral degree on or after Jan. 1, 2022. Applications for the next cycle will be announced later.

51 PEGASI B FELLOWSHIP

Purdue University is proud to be a host institution for the **Heising-Simons Foundation 51 Pegasi b**

Fellowship, and we have 17 faculty mentors from the College of Science.

The 51 Pegasi b Fellowship provides postdoctoral scientists with the opportunity to conduct theoretical, observational, and experimental research in planetary astronomy.

The 51 Pegasi b 2025 application is now closed. All applicants will be notified about the status of their applications by early February 2026.

Check out our new website on the EAPS webpage here:

<https://www.eaps.purdue.edu/research/51pegbellowship.html>

You can also email [Alexandria Johnson](#), who is Purdue's institutional contact. For more information, go to the [HS Foundation's website](#).

EAPS SPOTTR COURSE 2026

EAPS 43500: Severe Storms Field Work is now recruiting! For more details, reach out to Robin Tanamachi or Dan Dawson.

OUTREACH NEWS

If you or your group has worked with or helped with an activity for K-12 students or teachers, please fill out the [departmental outreach activity form](#).

Check out the latest [STEM Career Highlight!](#)

Board Game night is the third Friday of each month.

Time: 6:00 PM to 9:00 PM.

Location: HAMP 2244

Ongoing:

- Purdue University Kids STEM Degree
- Science From the Expert

MEETINGS/EXPOS/ OPPORTUNITIES OUTSIDE OF PURDUE

TAKKEN STUDENT RESEARCH PRESENTATION TRAVEL AWARD

The Takken Student Research Presentation Travel Award provides women geoscience students with support to present their research at a national or international professional geoscience meeting other than the Annual Meeting of the Geological Society of America (GSA Connects). If you are interested in support for the GSA Annual Meeting (GSA Connects), complete the AWG Sand Student Research Presentation Travel Award application. Please note that the GSA Section Meetings do not qualify for the Takken Award because they are regional, not national or international meetings. If you are in doubt about whether the meeting you plan to apply for qualifies for the Takken Award, contact the coordinator of the Takken Award before completing this form. **This application form is for meetings that occur after February 10, 2026.** Click [here](#) for more information.

NEW FELLOWSHIP TO SUPPORT SCIENTISTS IN ASTRONOMICAL INSTRUMENTATION

The Heising-Simons Foundation is excited to announce the launch of a new multi-year fellowship to support postdoctoral scientists who are developing instrumentation to shape the future of astronomy, astrophysics, cosmology, and planetary science. The [Astronomical Innovation \(Astronova\) Fellowship](#) will provide funding for up to two scientists per year at select host institutions for the next four years, beginning in Fall 2026. Promising early-career instrumentalists interested in this fellowship are welcome to **submit an application for the inaugural cycle through the [fellowship's portal](#) by February 27, 2026, at 2pm PT.**

NEW AWG FIELD CAMP GRANT

The Association for Women Geoscientists is able to offer a new Field Camp Grant for this summer. **Please note that there is a short application window, with applications due by March 15.** The goal of this grant is to make field camp accessible to students who might not otherwise be able to attend. This is a competitive funding opportunity with a total award pool of

\$14,000 USD. Applicants will be ranked, and a maximum of five grants will be awarded. Please spread the word to your organization and anyone you think might be interested. The full announcement and the application form can be found on the AWG website / Awards page at: <https://www.awg.org/page/ScholarshipsandAwards>. If you have any questions, direct them to fieldcamp-grant@awg.org.

FULLY FUNDED MAT EARTH SCIENCE PROGRAM

The Master of Arts in Teaching Earth Science Residency Program in the Richard Gilder Graduate School at the American Museum of Natural History in New York City is **looking for graduates with Earth and space science backgrounds, including those graduating in 2026** (geology, mineralogy, paleontology, oceanography, astronomy, environmental geology, and more) who want to make a difference in the world of STEM education. This teaching fellowship combines coursework, mentoring, and real-world experience to prepare Earth and space science graduates for **rewarding careers as culturally responsive middle and high school teachers**.

All degree candidates will receive **free tuition, books, and a \$40,000 stipend** towards the cost of living. In return, candidates commit to teaching in a high-needs school in New York City for two years. With a sole focus on preparing new Earth science teachers, the program is a full-time, 15-month Master's degree program that takes place at the Museum and in urban partner schools. We seek a student body with a passion for social justice and diverse life and career experiences.

We are currently accepting applicants for the class that will begin in June 2026. Prospective students are encouraged to attend an Information Session or to contact us for more information.

Check out more [program information here](#).

EXPLORERS CLUB IMPACT GRANTS

Fieldwork in the following disciplines will be considered: biological sciences, archaeology, anthropology, paleontology, earth sciences, ecology, and astronomy, as well as exploratory projects that reveal new knowledge about the planet and its inhabitants, including regions undergoing significant environmental or cultural change. While there may be lab components of a project, grants provide funding for projects that are largely based upon a field expedition. Fieldwork can be rugged and adventurous, but the program will not consider projects purely focused on

adrenaline sports or physical feats. Adventure with a purpose, combining adventure with genuine conservation or scientific objectives, will be considered.

Check out their [website here!](#)

UCAR STUDENT OPPORTUNITIES WEBSITE

Check the opportunities website for opportunities at UCAR.

POST-DOC OPPORTUNITY - AIR FORCE SCIENCE & TECHNOLOGY FELLOWSHIPS

The National Academies of Sciences, Engineering, and Medicine administers postdoctoral and senior research awards at the U.S. Air Force Research Laboratory (AFRL), the U.S. Air Force Institute of Technology (AFIT), and the U.S. Air Force Academy (USAFA) under the [Air Force Science & Technology Fellowship Program \(AF STFP\)](#).

Seeking highly qualified candidates who are U.S. citizens and hold, or anticipate earning, a doctorate in a variety of fields of science or engineering.

Application deadline dates (four annual review cycles): February 1, May 1, August 1, November 1
Awardees have the opportunity to:

- Conduct independent research in an area compatible with the interests of the Air Force laboratories
- Devote full-time effort to research and publication
- Access the excellent and often unique Air Force research facilities
- Collaborate with leading scientists and engineers
- Awardee benefits:
 - Base stipend starting at \$76,542; may be higher based on experience
 - Health insurance (including dental/vision), relocation benefits, and a professional travel allowance

For detailed program information, to search for AFRL, AFIT, and USAFA Research Opportunities, and to contact prospective Research Adviser(s), visit www.nas.edu/afstfp.

RECRUITMENT FOR CoCoRaHS

The Community Collaborative Rain, Hail, and Snow Network (CoCoRaHS) is looking for more weather observers throughout Indiana and beyond. By participating in CoCoRaHS, farmers contribute valuable data that supports better agricultural decisions, weather-related products, and faster recovery during severe weather events.

The application for U.S. participants is at <https://www.cocorahs.org/application.aspx>
