Dr. David A. Minton

Associate Professor

Purdue University • Department of Earth, Atmospheric, and Planetary Sciences
550 Stadium Mall Drive • West Lafayette, IN 47907 • (765) 494-3292
daminton@purdue.edu • github.com/profminton

Employment

2025-Pres.	**Professor with Tenure**, Purdue University, West Lafayette, IN.
2018–2025	**Associate Professor with Tenure**, Purdue University, West Lafayette, IN.
2011–2018	**Assistant Professor**, Purdue University, West Lafayette, IN.
2009–2011	**Research Scientist**, Southwest Research Institute, Boulder, CO.

Education

2005–2009	**Ph.D. in Planetary Sciences** The University of Arizona, Tucson, AZ. Dissertation: *Dynamical History of the Asteroid Belt and Implications for Terrestrial Planet Bombardment* Advisor: Renu Malhotra
2003–2005	University of Maryland, College Park, MD. Project: *Magnetohydrodynamic control of incipient boundary layer separation in supersonic flow* Advisors: Mark Lewis and David Van Wie
2001–2003	**B.S. in Aerospace Engineering - Summa Cum Laude** North Carolina state University, Raleigh, NC.
1999–2000	**A.S. in College Transfer** Central Piedmont Community College, Charlotte, NC.

Internships

2003	NASA Langley Aerospace Research Summer Scholar, Hampton, VA.

Refereed Publications

Funding

2025-Pres. *Understanding how Distal Ejecta Shapes the Lunar Surface Through Observations and Modeling*.
NASA Lunar Data Analysis Program 80NSSC25K7050
PI: David Minton · Total Budget: $873k

2024-Pres. *Origin and Evolution of the Martian Moon System.*
NASA Emerging Worlds Program 80NSSC23K1266
PI: Matija Ćuk · Co-I Minton's Budget: $475k

2023-Pres. *Lunar Structure, Composition and Processes for Exploration (LunaSCOPE)*
NASA Solar System Exploration Research Institute 80NSSC23M0161
PI: Alexander Evans · Co-I Minton's Budget: $36k

2022-Pres. *Using Lunar Topography Data to Model Realistic Crater Morphology*
NASA Lunar Data Analysis Program 80NSSC21K1719
PI: David Minton · Total Budget: $695k

2020-2024 *Investigating a Ring Formation Mechanism for Centaurs and TNOs*
NASA Solar System Workings Program 80NSSC20K0857
PI: Julie Brisset · Co-I Minton's Budget: $296k

2018-2021 *Constraining Lunar Bombardment History by Modeling Age Distributions of Ancient Impact Melts*
NASA Solar System Workings Program 80NSSC19K0032
PI: Oleg Abramov · Co-I Minton's Budget: $294k

2019-2021 *Early Dynamics of the Inner Solar System*
NASA Emerging Worlds Program 80NSSC19K0512
PI: Matija Ćuk · Co-I Minton's Budget: $105k

2017-2018 *Chariot to the Moons of Mars*

NASA Planetary Science Deep Space SmallSat Program NNX17AK30G
PI: David Minton · Total Budget: $411k

2016-2020 *High resolution topography and radar observations of lunar craters and cratered surfaces*
NASA Lunar Data Analysis Program NNX17AI79A
PI: Caleb Fassett · Co-I Minton's Budget: $104k

2016-2020 *Constraining lunar crater saturation by modeling GRAIL porosity*
NASA Lunar Data Analysis Program NNX16AN62G
PI: David Minton · Total Budget: $546k

2016-2019 *Stop hitting yourself: Did most terrestrial impactors originate from terrestrial planets?*
NASA Emerging Worlds Program NNX16AI31G
PI: Alan Jackson · Co-I Minton's Budget: $263k

2016-2016 *Modeling the formation of Phobos and Deimos from a debris disk with impacts*
NASA Earth and Space Sciences Fellowship NNX16AP46H
Graduate Student: Andrew Hesselbrock · Total Budget: $90k

2015-2020 *Modeling regolith evolution during post-basin epoch of lunar history*
NASA Solar System Workings Program NNX15AL41G
PI: David Minton · Total Budget: $566k

2015-2018 *Tidal dissipation during close encounters*
NASA Earth and Space Sciences Fellowship NNX15AQ99H
Graduate Student: Kevin Graves · Total Budget: $105k

2015-2018 *Modeling the evolution of lunar impact glasses*
NASA Earth and Space Sciences Fellowship NNX15AV55H
Graduate Student: Ya Huei Huang · Total Budget: $105k
