

Curriculum Vitae

MICHAEL E. BALDWIN

Department of Earth and Atmospheric Sciences
Purdue University
550 Stadium Mall Dr
West Lafayette, IN 47907-2051
baldwin@purdue.edu
(765) 494-0345 Fax: (765) 496-1210

Education

- 2003 Ph.D., Meteorology, University of Oklahoma, Norman, Oklahoma
Dissertation: Automated Classification of Rainfall Systems Using Statistical
Characterization
Committee chair: Prof. Frederick H. Carr
Principal advisor: Prof. S. Lakshmivarahan
- 1991 M.S., Meteorology, University of Oklahoma, Norman, Oklahoma
Thesis: Incorporation of Precipitation Data into a Numerical Weather Prediction Data
Assimilation System.
Advisor: Prof. Frederick H. Carr
- 1988 B.S.E., Atmospheric Science, University of Michigan, Ann Arbor, Michigan

Appointments

- 2012-present Associate Professor, Department of Earth, Atmospheric, and Planetary Sciences,
Purdue University, West Lafayette, Indiana
- 2006-2012 Assistant Professor, Department of Earth and Atmospheric Sciences, Purdue
University, West Lafayette, Indiana
- 1999-2006 Research Scientist, Cooperative Institute for Mesoscale Meteorological Studies,
University of Oklahoma, Norman, Oklahoma
- 1991-1999 Support Scientist, General Sciences Corporation, National Centers for
Environmental Prediction/Environmental Modeling Center, Camp Springs,
Maryland

Teaching Experience

- 2019 Spring: Survey of Atmospheric Science (EAPS 22100)
- 2019 Spring: Advanced Synoptic Meteorology (EAPS 59100)
- 2018 Fall: Intro to Observations and Measurements (EAPS 22700)
- 2018 Fall: Atmospheric Dynamics I (EAPS 42200)

2018 Fall: Synoptic Lab III (EAPS 43300)
2018 Spring: Synoptic Lab I (EAPS 43100)
2018 Spring: Synoptic Lab III (EAPS 43300)
2018 Spring: Weather Analysis and Forecasting (EAPS 43400)
2017 Fall: Forecast Verification (EAPS 59100)
2017 Fall: Synoptic Lab III (EAPS 43300)
2017 Spring: Atmospheric Physics (EAPS 53200)
2017 Spring: Advanced Synoptic Meteorology (EAPS 59100)
2017 Spring: Weather Analysis and Forecasting (EAPS 43400)
2016 Fall: Laboratory in Atmospheric Science (EAPS 23000)
2016 Fall: Synoptic Lab III (EAPS 43300)
2016 Fall: Synoptic Lab I (EAPS 43100)
2016 Spring: Weather Analysis and Forecasting (EAPS 43400)
2015 Fall: Laboratory in Atmospheric Science (EAPS 23000)
2015 Fall: Nearly Operational Forecasting Experience and Reporting (EAPS 19100 & 39100)
2015 Fall: Synoptic Lab III (EAPS 43300)
2015 Spring: Broadcast Meteorology (EAPS 39100)
2015 Spring: Laboratory in Atmospheric Science (EAPS 23000)
2014 Fall: Forecast Verification (EAPS 59100)
2014 Spring: Weather Analysis and Forecasting (EAPS 43400)
2013 Fall: Advanced Scientific Computing (EAPS 59100)
2013 Fall: Introduction to Atmospheric Research (EAPS 22600)
2013 Spring: Purdue University, Scientific Computing (EAS 39100)
2013 Spring: Purdue University, Weather Analysis and Forecasting (EAS 43400)
2013 Spring: Purdue University, Mesoscale Forecasting (EAS 59100)
2012 Fall: Purdue University, Team Weather Forecasting (EAS 39100)
2012 Fall: Purdue University, Introduction to Atmospheric Research (EAS 22600)
2012 Fall: Purdue University, Forecast Verification (EAS 59100)
2012 Spring: Purdue University, Scientific Computing (EAS 39100)
2012 Spring: Purdue University, Weather Analysis and Forecasting (EAS 43400)
2011 Fall: Purdue University, High-Performance Computing in ATMS (EAS 59100)
2011 Fall: Purdue University, Team Weather Forecasting (EAS 39100)
2011 Spring: Purdue University, Weather Analysis and Forecasting (EAS 43400)
2010 Fall: Purdue University, Physical Processes in NWP and Climate Models (EAS 59100)
2010 Fall: Purdue University, Team Weather Forecasting (EAS 39100)
2010 Spring: Purdue University, Weather Analysis and Forecasting (EAS 43400)
2009 Fall: Purdue University, Team Weather Forecasting (EAS 39100)
2009 Spring: Purdue University, Weather Analysis and Forecasting (EAS 43400)
2009 Spring: Purdue University, Computer-Aided Analysis for Geosciences (EAS 30900)

2008 Fall: Purdue University, Forecast Verification (EAS 591V)
2008 Fall: Purdue University, Team Weather Forecasting (EAS 391F)
2008 Spring: Purdue University, Weather Analysis and Forecasting (EAS 434)
2007 Fall: Purdue University, Physical Parameterizations in NWP (EAS 591U)
2007 Spring: Purdue University, Weather Analysis and Forecasting (EAS 434)
2005 Spring: University of Oklahoma, Instructor, Advanced Synoptic Meteorology
1991 Summer: University of Oklahoma, Instructor, Atmospheric Dynamics I
1988 Fall: University of Oklahoma, Teaching Assistant, Introduction to Meteorology

Research Interests

Numerical weather prediction, forecast verification, data-driven atmospheric science, climate change, scientific computing

Research Grants

Principal investigator: Development of an Automated Winter Road Condition Analysis and Prediction System, INDOT/JTRP, \$95600 (Oct 2016 - Sep 2018)

Co-principal investigator: Improved Understanding of Tornado Development and Risk using Models and Observations from VORTEX-SE 2017, NOAA, \$43500 (Oct 2016 - Sep 2018)

Principal investigator: Improved Understanding of Tornado Development and Risk using Models and Observations from VORTEX-SE, NOAA, \$175000 (Oct 2015 - Sep 2017)

Principal investigator: Development of a geographic winter-weather severity index for the assessment of maintenance performance, INDOT/JTRP, \$175000 (Jan 2014 - Mar 2015)

Principal investigator: Assessment and Recommendations for Using High-resolution Weather Information to Improve Winter Maintenance Operations, INDOT/JTRP, \$147346 (Jul 2012 - Dec 2013)

Co-principal investigator: Collaborative Research: Improved understanding of convective-storm predictability and environment feedbacks from observations during the Mesoscale Predictability Experiment (MPEX), National Science Foundation, \$440200 (Oct 2012 - Sep 2016)

Co-principal investigator: The Response of Convective Precipitating Storms to Anthropogenically Enhanced Global Radiative Forcing, National Science Foundation award number 0756624, \$616,112 (Sep 2008 - Aug 2011)

Co-principal investigator: The Application of a Successful Research-based Laboratory Model to Atmospheric Science, National Science Foundation award number 0837272, \$150,000 (Jan 2009 - Dec 2011)

Principal investigator: Incorporation of forcing characteristics into a prediction system for high-impact convective precipitation events. COMET Cooperative Research Project, UCAR Subaward number Z10-83406 (Sep 2010 - Aug 2011: \$11,900).

Co-principal investigator: An experimental, real-time prediction system for high-impact convective weather events. COMET Cooperative Research Project, UCAR Subaward number S08-66813 (Jan 2008 - Dec 2009: \$46,400).

Invited Presentations

- 2018 Purdue Road School: Automated Winter Road Condition Analysis and Prediction
- 2017 Asian Conference on Meteorology (ACM): Simulation and analysis of convective weather hazards, Busan, South Korea
- 2017 Korean Meteorological Society (KMS): High-impact weather systems, Busan, South Korea
- 2017 Purdue Road School: Winter Operations: Winter Storm After-Action Review Using Crowdsourced Probe Vehicle and Weather Data
- 2015 Purdue Road School: Winter Weather Services and Forecasting Options for Local Agencies
- 2013 Purdue Road School: Using High-resolution Weather Data to Improve Winter Weather Maintenance Operations
- 2012 Lafayette Rotary Club, West Lafayette, IN, presentation: Weather Forecasting
- 2011 Nation of Islam Saviours' Day Workshop on Disaster Preparedness, Chicago, IL, presentation: Extreme weather
- 2011 NWS/Aviation Weather Center, Kansas City, MO, seminar: Feature-specific analysis and prediction
- 2011 NWS/Aviation Weather Center, Kansas City, MO, seminar: Cloud physics in NWP
- 2011 NCAR/WRF DTC, Boulder, CO, seminar: Field significance for spatial forecast evaluation
- 2010 Department of Earth Sciences, IUPUI, seminar
- 2009 NWS forecast office Indianapolis, IN seminar: convective parameterizations in NWP
- 2008 UCAR/WRF DTC Verification Workshop, Boulder, CO
- 2008 NCEP/EMC seminar: Verification Testbed Development, Camp Springs, MD
- 2008 NWS forecast office Indianapolis, IN seminar: WRF prediction of high-impact

- convective weather
- 2007 NWS forecast office North Webster, IN seminar: NWP and winter precipitation type
 - 2007 UCAR/COMET COMAP course: NWP and winter precipitation type, Boulder, CO
 - 2007 UCAR/DTC WRF verification toolkit workshop, Boulder, CO
 - 2006 Department of Geography, Western Michigan University, seminar
 - 2006 THORPEX-SERA Workshop, Boulder, CO
 - 2006 Unidata Users workshop, Boulder, CO
 - 2004 AMS Short Course on Significance Testing, Model Evaluation, and Alternatives, Seattle
 - 2003 UCAR/COMET COMAP course: convective parameterization, verification, Boulder, CO
 - 2002 NCAR verification workshop: Making verification more meaningful, Boulder, CO
 - 2002 NWS workshop on verification of gridded forecasts, Silver Spring, MD
 - 2001 UCAR/COMAP Symposium on heavy precipitation and flash flooding, Boulder, CO
 - 1999 NWS workshop on quantitative precipitation estimation, Boulder, CO

Professional Activities

- 2017 Judge and application provider, Student Cluster Competition, Supercomputing conference
- 2015 Co-convenor, Unidata Triennial Users Workshop “Data-driven Geoscience: Applications, Opportunities, Trends, and Challenges.”
- 2012-2015 Member, Unidata Users’ Committee
- 2012-2014 Editor, *Weather and Forecasting*
- 2011 Organized AMS 10th Conference on Artificial Intelligence Applications to Env. Science
- 2010 Co-convenor, NCAR/ASP Summer Colloquium: Forecast Verification in the Atmospheric Sciences and Beyond
- 2010-present Faculty Advisor, Supercomputing Conference Student Cluster Competition, Purdue Team
- 2010-2012 Member, WRF DTC Science Advisory Board
- 2009-2015 Member, AMS Committee on Artificial Intelligence Applications to Environmental Sci.
- 2008-present Member, WRF DTC Verification working group
- 2007-present Faculty Advisor, Purdue University Meteorological Association (PUMA)
- 2006-present Member, Purdue Climate Change Research Center (PCCRC)
- 2007-2011 Associate Editor, *Weather and Forecasting*
- 2004-2006 Associate Editor, *Monthly Weather Review*
- 2003 Lead author of National Weather Service Plan for Verification of Forecasts in the National Digital Forecast Database.
- 2001-2004 Research mentor, REU (Research Experience for Undergraduates) at the National

- Severe Storms Laboratory (2003, 2004), ORISE (Oak Ridge Institute for Science and Education) at the Storm Prediction Center (2001)
- 2000-2005 Co-principal investigator and participant, NSSL/SPC Spring Program (now NOAA Hazardous Weather Testbed).
- 2000-2009 Member, WRF model post-processing working group. Developed WRF post-processing software currently in use at NCEP, NCAR, NSSL, and CAPS.
- 1997-2003 Developed workstation version of Eta Model including Kain-Fritsch convection, routinely produced daily real-time runs and specialized output for forecasters at Storm Prediction Center, Hydrometeorological Prediction Center, and community access.

Professional Society Memberships

American Meteorological Society
American Geophysical Union

Awards

- 2017 Purdue University College of Science Undergraduate Advising Award
- 2012 Purdue University College of Science Undergraduate Advising Award
- 2012 Purdue University Teaching for Tomorrow Fellowship Award
- 2009 Purdue University College of Science Faculty Award for Outstanding Contributions to Undergraduate Teaching by an Assistant Professor
- 2003 American Meteorological Society Editor's Award for the journal *Weather and Forecasting* for "thoughtful, helpful, and detailed reviews that consistently assisted in improving submitted manuscripts."
