

CURRICULUM VITAE

Wen-wen Tung
wwtung@purdue.edu

Last Updated March 01, 2023

Associate Professor
Director of GeoData Science for Professionals (GDSP) MS Program
Department of Earth, Atmospheric, and Planetary Sciences
Purdue University

550 Stadium Mall Drive
West Lafayette, IN 47907-2051
T: (765) 494-0272, F: (765) 496-1210
<https://www.eaps.purdue.edu/tung/>

EDUCATION

University of California, Los Angeles **Los Angeles, CA**
Ph.D., Atmospheric Sciences 2002
Thesis Advisor: Michio Yanai
M.S., Atmospheric Sciences 1998

National Taiwan University **Taipei, Taiwan**
B.S., Atmospheric Sciences 1996

PROFESSIONAL EXPERIENCES

Purdue University **West Lafayette, IN**
Founder and Director Geodata Science for Professional Master's Program
Department of Earth, Atmospheric, and Planetary Sciences August 2019–present

Purdue University **West Lafayette, IN**
Associate Professor Atmospheric Sciences and Geodata Science
Department of Earth, Atmospheric, and Planetary Sciences August 2011–present

National Taiwan University **Taipei, Taiwan**
Visiting Associate Professor Atmospheric Sciences
Department of Atmospheric Sciences Summer 2015

New York University **New York, NY**
Sabbatical Visit Center for Atmosphere Ocean Science
Courant Institute of Mathematical Sciences April 2012–May 2013

PMB InTelligence, LLC **West Lafayette, IN**
Founding President and Director March 2009–December 2012

Purdue University **West Lafayette, IN**
Assistant Professor Atmospheric Sciences
Department of Earth, Atmospheric, and Planetary Sciences January 2005–August 2011

National Center for Atmospheric Research **Boulder, CO**
Visiting Scientist Cloud Systems Group
Mesoscale & Microscale Meteorology Laboratory Summer 2004 & 2005

National Center for Atmospheric Research **Boulder, CO**
Postdoctoral Fellow Atmospheric Sciences
Advanced Study Program August 2002–July 2004

University of California, Los Angeles **Los Angeles, CA**
Graduate Research Assistant Atmospheric Sciences
Department of Atmospheric and Oceanic Sciences August 1996–June 2002

University of California, Los Angeles **Los Angeles, CA**
Graduate Teaching Assistant/Associate Atmospheric Sciences
Department of Atmospheric and Oceanic Sciences September–December 1998/2001

AWARDS AND HONORS

Teaching Academy Fellow Purdue University	2020 Teaching Academy
Leadership Award Purdue University	2019 College of Science
Major Scientific Equipment Program: A Scalable Computational Environment for Deep Analysis of Complex Weather, Climate, Environmental, Resource, Energy, and Societal (WCERES) Nexus Data Purdue University	2017 \$99,999 Awarded Office of Provost
Diversity Award Purdue University	2016 College of Science
Instruction Matters: Purdue Academic Course Transformation (IMPACT) Fellow Purdue University	2016 Center for Instructional Excellence
Purdue Online Courses/Instructional Technology Program: Purdue Virtual Laboratory with Conceptual Earth System Models Purdue University	2015 \$13,368 Awarded Digital Education
Graduate Student Mentoring Award Purdue University	2012 College of Science
Advanced Study Program Postdoctoral Fellowship National Center for Atmospheric Research	2002–2004 Advanced Study Program
Dissertation Year Fellowship University of California, Los Angeles	2001–2002 Department of Atmospheric and Oceanic Sciences
Jacob Bjerknes Memorial Award for Graduate Research University of California, Los Angeles	2001 Department of Atmospheric and Oceanic Sciences
Graduate Student Scholarship. 10th Symposium on Global Change Studies American Meteorological Society	1999 79th Annual Meeting, 10–15 January 1999, Dallas, Texas
Purdue EAPS Departmental Teaching Honor Roll EAPS507 Introduction to Analysis And Computing With Geoscience Data: Fall 2019, Fall 2020, Fall 2021, Fall 2022 EAPS509 Data Analysis Techniques Applied to Earth and Atmospheric Sciences: Fall 2017 EAPS591/515 Geodata Science: Spring 2018, Spring 2022 EAPS309 Computer-aided Data Analysis for Geosciences: Spring 2017, Spring 2016, Spring 2015 EAPS109 Dynamical Earth: Fall 2017, Fall 2016, Fall 2015 EAPS129 Earth System Dynamics: Fall 2018, Fall 2019 EAPS120 Introduction to Geography: Fall 2016, Fall 2018 EAPS534 Tropical Meteorology: Fall 2015 EAPS591 Geodata Science Seminar: Fall 2018, Spring 2019, Fall 2019, Fall 2020, Spring 2022, Fall 2022	

RESEARCH INTERESTS

- Perform deep analysis, data-driven model, and uncertainty quantification on Earth and atmospheric data.
 - Analyze tropical dynamics and tropical–extra-tropical interactions.
 - Analyze multiscale convection-coupled atmospheric systems.
 - Interface weather, climate, environmental, resource, energy, and societal systems.
- Construct distributed-parallel computing environments for statistical analysis of big complex data.
- Quantify dynamical predictability by applying chaos and information theories.
- Develop and apply dynamical system and multiscale signal processing methods in geophysics and bioinformatics.

Google Scholar Citations as of 03-01-23: 3965, h-index: 30, i10-index: 43

PROFESSIONAL ASSOCIATIONS

- American Geophysical Union (AGU)
- American Meteorological Society (AMS)
- American Statistical Association (ASA)
- Society for Industrial and Applied Mathematics (SIAM)

SYNERGISTIC ACTIVITIES

• Geodata Science Leadership

- I created and am leading Geodata Science initiatives at Purdue, having organized and led multiple internal and external team research and outreach proposals. 2017–present
- I co-led the building and maintenance of a new cloud storage system funded by NSF. 2022–present
- I led the building and maintenance of a community Hadoop high-performance-computing cluster for big complex data analysis funded by Purdue Provost. 2017–present
- I have been presenting invited seminars and hosting tutorials domestically and internationally on Data Science with applications to Earth systems. 2017–present
- I co-lead a DOE IFL Proposal on “Digital Twin Collaboratory: Interactions among Chicago’s Urban-Environmental Systems” of \$18,275,203 to Purdue, not funded. 2022
- I co-lead an NSF HDR Proposal on “HDR Institute: Data Science Collaboratory for Natural and Urban Systems” of \$13,731,632 to Purdue, not funded. 2021
- I led the Physical Science part of the Purdue College of Science multidisciplinary data science faculty search. 2020
- I was honored with Purdue University College of Science Leadership Award for Geodata Science leadership. 2019

• Education and Pedagogy Innovation

- I am elected the College of Science representative in the Executive Council of Purdue Teaching Academy. 2022–present
- I am leading the creation of online Applied Data Science Graduate Certificate for Earth, Atmospheric, and Planetary Sciences. 2021–present
- I am an Amazon Web Service Academy Foundation-Level Accredited Educator 2021–present
- I am serving as Purdue Teaching Academy Fellow to enhance and strengthen the quality of teaching and learning at the undergraduate and graduate levels. 2020–present
- I created and am directing the EAPS Geodata Science for Professionals (GDSP) MS concentration program. 2018–present
- I was a co-organizer, moderator, and presenter at US Summit on Transformative Education, February 23-25, 2023, Online 2023
- I served as a faculty interviewer for the Quad Fellowship by Schmidt Futures 2022
- I served as Purdue College of Science Representative at the Digital Education Community Collaboration. 2018–2020
- I have received Certification for Independent Applying the QM Rubric. 2019

Quality Matters (QM) is the global organization leading quality assurance in online and innovative digital teaching and learning environments.

- I served on the Purdue University Digital Education Faculty Advisory Committee 2017–2019
- I redesigned computer-aided data analysis courses as a Fellow of the Purdue Center for Instructional Excellence IMPACT program. 2016–2017

• Professional Editorship and Services

- I am serving on the American Meteorological Society Scientific and Technological Activities Commission (STAC) Probability and Statistics Committee 2023
- I organized a special session honoring Cleveland and Tukey for the American Statistical Association’s 2021 Symposium on Data Science and Statistics. 2021
- I served on the Editorial Board: Mathematics of Climate and Weather Forecasting. 2016–2019
- I served on the Editorial Board: AIMS Geosciences. 2015–2016
- I served as a Co-Editor: Multiscale Convection-Coupled Systems in the Tropics, Meteorological Monograph, American Meteorological Society. 2016
- I organized and co-Chaired the Michio Yanai Symposium, 27 January 2011, Seattle, WA, at the 91st American Meteorological Society Annual Meeting. 2011
- I participated in the Dynamics of the MJO (DYNAMO) 3rd planning workshop, Seattle, July 6-8, 2010. 2010
- I participated in NCAR TIIMES Weather-Climate Retreat on the Intersection of Weather and Climate: Tropical Convection and Two-way Scale Interaction, 10-14 July 2006. 2006
- I have provided reviews for scientific journals, book publishers, and funding agencies, including the Journal of Atmospheric Sciences, Journal of Climate, Climate Dynamics, Monthly Weather Review, Weather and Forecasting, Journal of Geophysical Research, Geophysical Review Letters, Quarterly Journal of Royal Meteorological Society, Theoretical and Applied Climatology, Atmospheric Research, IEEE Trans. Biomedical Engineering, IEEE Signal Processing Letters, Entropy, Journal of the Royal Society Interface, PLoS One, Wiley & Sons Higher Education, Cambridge University Press, and the National Science Foundation.

• Diversity, Equity, and Inclusiveness Path

- I spoke at Purdue Women in Science Program event on Data Science on February, 2022 2022
- I spoke at American Statistical Association Women in Statistics and Data Science Conference. 2021
- I was in the pilot faculty cohort of Purdue Institute for Racial Equity. 2021
- I served on Purdue University Advisory Committee on Equity. 2017–2019
- I served on Faculty Professional Development Committee, College of Science, Purdue University. 2017
- I served on the Strategic Hiring Committee, College of Science, Purdue University. 2015–2019
- I served and chaired (2013–2017) the Diversity Committee, Department of Earth, Atmospheric, and Planetary Sciences, Purdue University, leading multiple external proposals for broadening participation of geoscience and data science. 2013–2019
- I was honored with Purdue University College of Science Diversity Award. 2016
- I served on Purdue University Disability Resource Center Faculty Advisory Committee as the College of Science representative. 2014–2016
- I served on Purdue University College of Arts and Education Foreign Language Substitution Committee as the College of Science representative. 2013–2016
- I served on Faculty Committee for Diversity, College of Science, Purdue University. 2009–2016
- I spoke at Purdue Women in Data Science and Women in Science Programs. 2017, 2018, 2022
- I was a mentor for the Purdue Summer Research Opportunity Program (SROP) for under-represented minority undergraduate students seeking PhD degrees. 2010

PUBLICATIONS

* denotes an immediate student mentee

A. Books and Book Chapters

1. *Multiscale Convection-Coupled Systems in the Tropics*, R. G. Fovell, and **W.-w. Tung**, Eds., Meteorol.

Monogr., American Meteorological Society, 2017. ISBN:978-1-944970-04-8
<https://bookstore.ametsoc.org/catalog/book/multiscale-convection-coupled-systems-tropics>.

2. Fovell, R. G., and **W.-w. Tung**, 2016: Introduction, in *Multiscale Convection-Coupled Systems in the Tropics*, R. Fovell, and W. Tung, Eds., Meteorol. Monogr., American Meteorological Society, doi: 10.1175/AMSMONOGRAPHS-D-16-0003.1.
3. Steven Esbensen, J. H. Chu, **W.-w. Tung**, and R. G. Fovell, 2016: EPILOGUE: Six Decades of Tropical Meteorology Research: A Retrospective on Michio Yanai's Life and Career, in *Multiscale Convection-Coupled Systems in the Tropics*, R. Fovell, and W. Tung, Eds., Meteorol. Monogr., American Meteorological Society.
4. Gao, J. B., Y. Cao, **W.-w. Tung**, and J. Hu*, 2007: *Multiscale analysis of complex time series — Integration of Chaos and Random Fractal Theory, and Beyond*, Wiley Interscience, 368pp.

B. Referred Publications

Avnika Manaktala

- Purdue e-Pubs Geodata Science Technical Report #4
- Analysis and prediction of Californian county precipitation using atmospheric river indices, soil moisture, and snow water equivalent M.S. 2020

Hannah Walcek

- Purdue e-Pubs Geodata Science Technical Report #2
- A framework for analyzing ground effects of atmospheric rivers M.S. 2020

FUNDING RECORDS

- CO-PI: NSF CC* Data Storage: Software defined storage for composable and HPC workflows 09/01/2022–08/31/2024
\$494,600 Awarded
- CO-PI: Understanding and Predicting the Tropical-Extratropical Relaying Pathways to Arctic Amplification, Purdue Climate Change Research Center 12/20/2021–06/19/2023
\$15,597/\$25,000 Awarded
- PI: Bilsland, Winifred B. Endowment, Purdue Graduate School 01/03/2022–08/05/2022
\$36,639 Awarded
- PI: Ross Graduate Fellowship-Assistantship, Purdue Graduate School 05/01/2015–07/31/2022
\$29,526 Awarded
- PI: Ross Graduate Fellowship-Assistantship, Purdue Graduate School 05/01/2015–07/31/2022
\$28,504 Awarded
- PI: Bilsland, Winifred B. Endowment, Purdue Graduate School 05/01/2018–07/31/2021
\$17,562 Awarded
- Co-PI: Diagnostic methods & software for fitted model checking DARPA FA8750-17-2-0111 03/30/2017–06/30/2021
\$66,763/\$800,000 Awarded
- Subaward PI: Monsoon and the upper troposphere-lower stratosphere interface NSF AGS-1802248/Columbia 09/02/2017–10/19/2020
\$131,366 Awarded
- PI: Bilsland, Winifred B. Endowment, Purdue Graduate School 05/01/2015–07/31/2019
\$20,189 Awarded
- PI: Ross Graduate Fellowship-Assistantship, Purdue Graduate School 08/01/2010–07/31/2019
\$16,987 Awarded
- Subaward PI: Assessing the impacts of Arctic amplification on the midlatitude circulation with a hierarchy of atmospheric general circulation models NSF AGS-1815138/Columbia 09/01/2017–06/30/2019
\$117,666 Awarded

PI: Impacts on the surface energy balance by the US landfalling atmospheric rivers NASA NNX16AO62H S03	09/01/2016–05/15/2017 \$13,860 Awarded
PI: Laboratory & University core facility research equipment program Purdue EVPRP and Provost	12/01/2014–07/31/2016 \$6,392 Awarded
Subaward PI: Dimensionality reduction of multiscale spatio-temporal data – Applications to tropical cloud systems NSF CMMI-1031958/Wright State	05/01/2013–08/31/2014 \$24,999 Awarded
PI: Sensitivity of the Asian summer monsoon simulation to the convection, cloud microphysics, and associated radiative effects Purdue Research Foundation - XR Grants	06/01/2010–05/12/2014 \$16,795 Awarded
PI: Collaborative Research: Quantifying predictability in nonlinear multiscale systems with applications to tropical cyclone prediction NSF CMMI-0826119	09/01/2008–08/31/2013 \$180,000 Awarded
